Allow me to introduce myself:

My name is Brian Moreno, and I am a Senior at California State University Fullerton, with an expected graduation date of May 2010, for a Bachelor of Arts in Radio-TV-Film Production. Currently, I am seeking an internship within the field of Film Production, Pre-Production, and Post Production to satisfy my last degree requirement with CSUF.

As stated in my resume, I have completed all production curriculum and requirements within the Radio-TV-Film program, ranging in writing screenplays, producing and editing audio and HD video, working with an array of lighting equipment including Arri and Kino Flo lights, and shooting with Super 16mm cameras and film.

Along with completing required course work, I was also Cinematographer for the universities fall 2007 film, "Anxieties," shot on FujiFilm Reala 500 super 16mm film, and the Super 16mm Eclair NPR. For Fall 2009, I was an editor for the universities Fall 2008 film, "Amy Becker," using the latest Final Cut Studio & Pro Tools, exposing me to Super 16mm to HD telecine, and a variety of HD formats including HDCAM.

Outside of my major, I have taken advantage of my degrees open units and completed the majority of California State University Fullerton's Fine Art Photography courses within the Art Department. The program furthered my knowledge in both black & white, color film, and their development, along with color theory, concept creation, and meticulous execution. Beyond film, the courses exposed me to digital photography working with Canon and Nikon digital cameras, professional strobe sets, and the power that PhotoShop gives to the digital photographer.

I am currently working as a photographer and digital artist within in my own business, www.BrianMoreno.com. I have done work in wedding photography, promotional photography, event photography including night clubs, and live performance photography with artists including Lady Gaga. My latest work, "LittleBadRomance," was recently featured on the Sony Playstation corporate blog, and officially recognized by the company Media Molecule, whose tools I used in the shorts creation.

Beyond work in media, I have also worked as a promotor for Zach Moo's at various night clubs and venues throughout Orange County, enhancing my social skills, and working with customers on a one to one basis. At the 2008 San Diego Comic-Con, I was hired to work with MarketingWerks and Sony Computer Entertainment America as a brand representative working Sony's PlayStation booth, giving guided tours and answering questions directly to and from consumers.

I am currently living in Laguna Hills, California. I can be ready at any time to relocate closer to Los Angeles, or to follow a production on location.

Thank you very much for taking the time to review my resume and for your consideration. I look forward to speaking with you in the near future.

Sincerely,

Brian Moreno.

Brian Moreno
